

Share Aware overview – Short (For newsletters etc)

Share Aware, from NSPCC and O2, gives parents all the tools they need to have regular and informed conversations with their child about staying safe online. Under 20% of parents discuss online safety regularly with their children but we want to get every family talking about their child's life online, just as they would their day at school.

Parents can sign up to the [Icebreaker email series](#) and become an expert in their child's online world in 6 weeks, follow our [four simple steps](#) to keeping kids safe online, watch our film '[Safety advice from a 10 year old](#)' or visit [Net Aware](#) – our guide to your child's social networks apps and games.

The internet is a great place for kids to be, being Share Aware makes it safer.

Share Aware campaign overview (LONG)

To kids, online life is real life. And, just like in real life, kids need help to stay safe online.

Share Aware is an NSPCC and O2 campaign to help parents have regular and informed conversations with their child about online safety. We're aiming to get every family in the UK chatting about their kids' online world, just like they would about their day at school.

We tell children that's it's good to share, but online it's different and sometimes it can be dangerous. Through our straight-forward, step-by-step advice and Icebreaker email series, we'll show parents how to untangle the web and teach children how to make the right decisions online, even when parents aren't there.
